GOLF

GOLF

3 golf courses

the breeze, the sun, the green landscape...

The North course is atmospheric, the Centre course is for fun and the South... a challenge. PortAventura has entrusted Greg Norman and Green Project with developing

three golf courses with a perfect balance between challenge and entertainment offering a pleasant experience whatever your handicap.

The whole design and construction work of the golf courses has taken place in absolute respect of the environment. Proof of this is the forthcoming Gold Signature recognition awarded by Audubon International, a prestigious conservation body that certifies the respectful and sustainable integration of the best golf courses in the world.

North course

a great sporting challenge

Designed by Greg Norman this is the most technical of the three and entails the greatest challenge for players. It offers a varied and enjoyable round of 18 holes and par 71.

The round unfolds in complete harmony with the natural characteristics of the terrain: large lakes and an immense wetland make up the Sèquia Major Space of Natural Interest listed as a place of Natural Interest by the Regional Government of Catalonia.

an entertaining game, an original round
